

Problem:

owó (money)

òwò (business)

ọwọ (hand)

owo

```
graph LR; A[owó (money)] --> D[owo]; B[òwò (business)] --> D; C[ọwọ (hand)] --> D;
```

The diagram illustrates a homonym problem. On the left, three Yoruba words are listed in orange-bordered boxes: 'owó (money)', 'òwò (business)', and 'ọwọ (hand)'. Arrows from each of these boxes point to a single gray rounded rectangle on the right containing the English word 'owo'. This visualizes the ambiguity of the English word 'owo' when it is derived from different Yoruba roots.
